EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bruce Slayden on 2/2/05.

The application has been amended as follows:

In the claims:

Claim 9 line 11, delete "the corresponding" and insert therefore --a corresponding--

Claim 9 lines 14-15 delete "on one of the areas of the second body" and insert therefore --between adjacent second chips--

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Figure 2 shall be amended to show a clear demarcation between the first metallic body and the second metallic body. This change should show that the first chips C1 are on a different metallic body than the second chips C2. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

3. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach, disclose, or suggest, either alone or in combination, a circuit arrangement as claimed including first chips on a first metallic body, second chips on a second metallic body, and a third metallic body on the second metallic body having projections between the second chips where the first chips are connected to the projections.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Tanaka et al. (U.S. Patent No. 6121681), Duesman et al.
